

POLISHING THE PRESENTATION WITH MOVIE MAKER

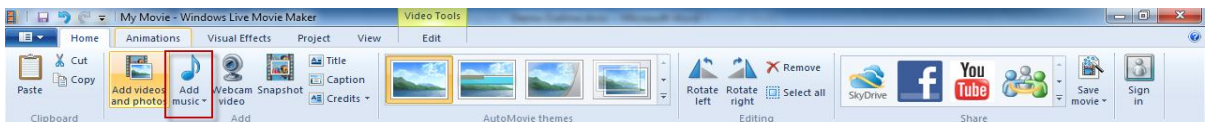

1. Open Windows Movie Maker Live
2. Click on “Add Videos and Photos”

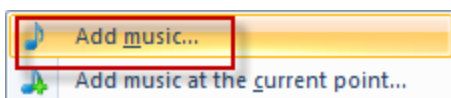

3. Choose the video files you wish to add and click “Open”

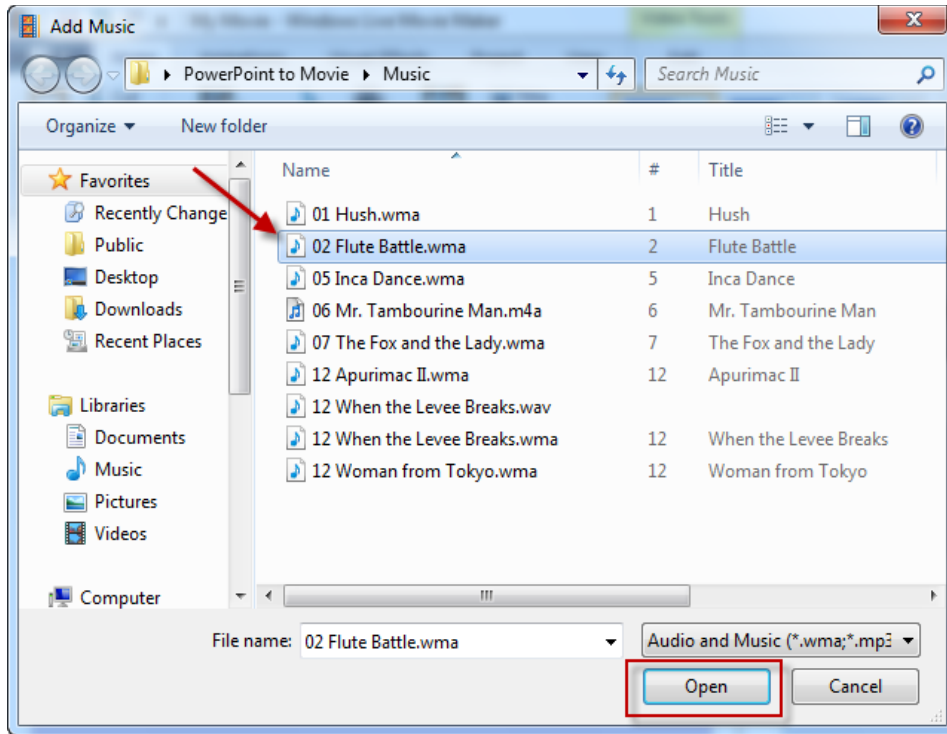

4. Add background music by clicking the “Add Music” button from the “Home” ribbon.

5. Choose “Add music”

6. Choose which music file you wish to add and click “Open”

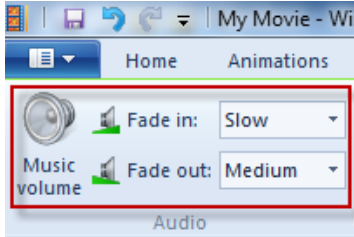

7. The music file will show up above the video on the timeline.

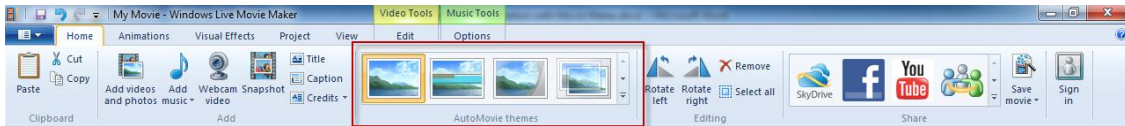

8. Click “Options” on the Music Tools ribbon.

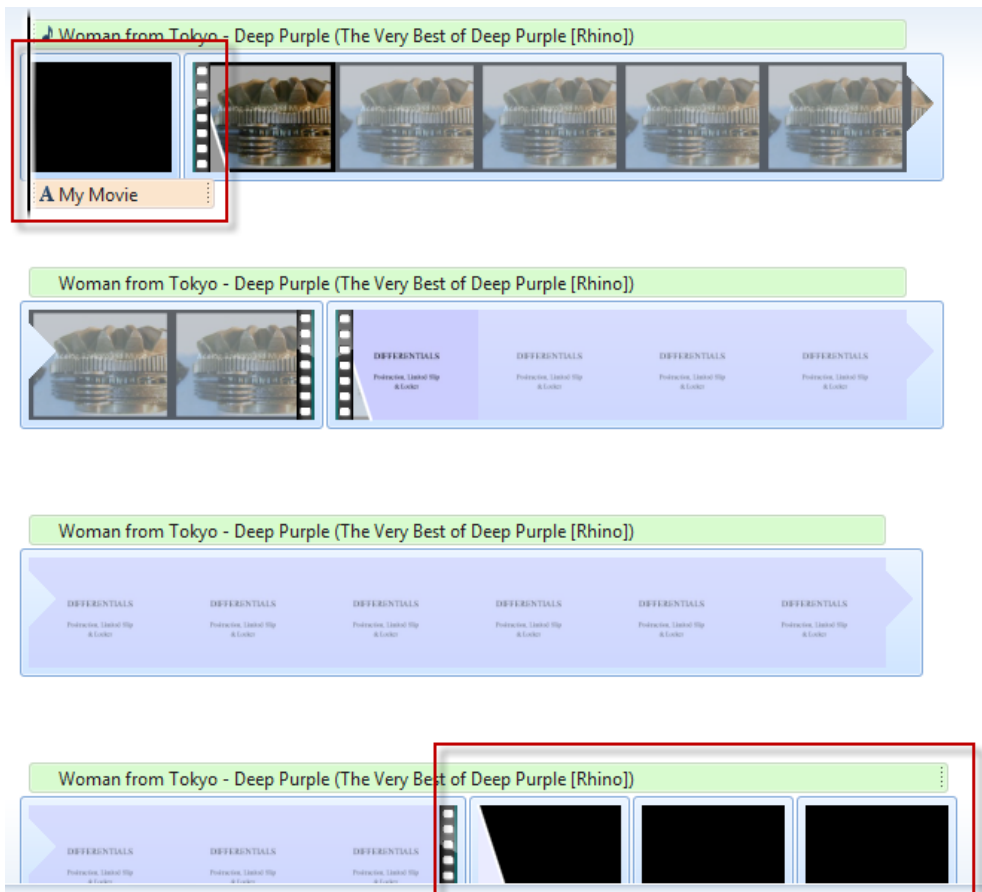

9. Adjust the sound fade and volume.

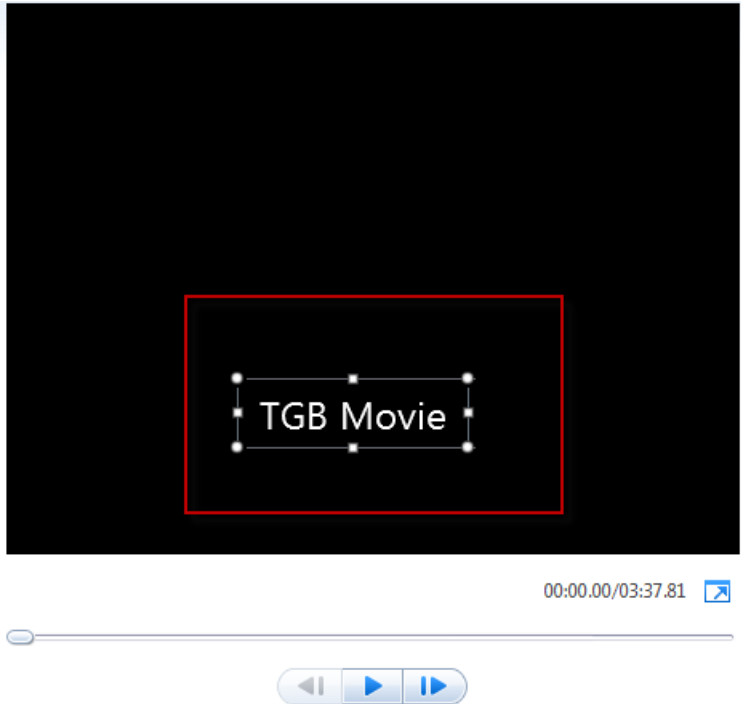

10. On the “Home” ribbon click on a “Theme”.

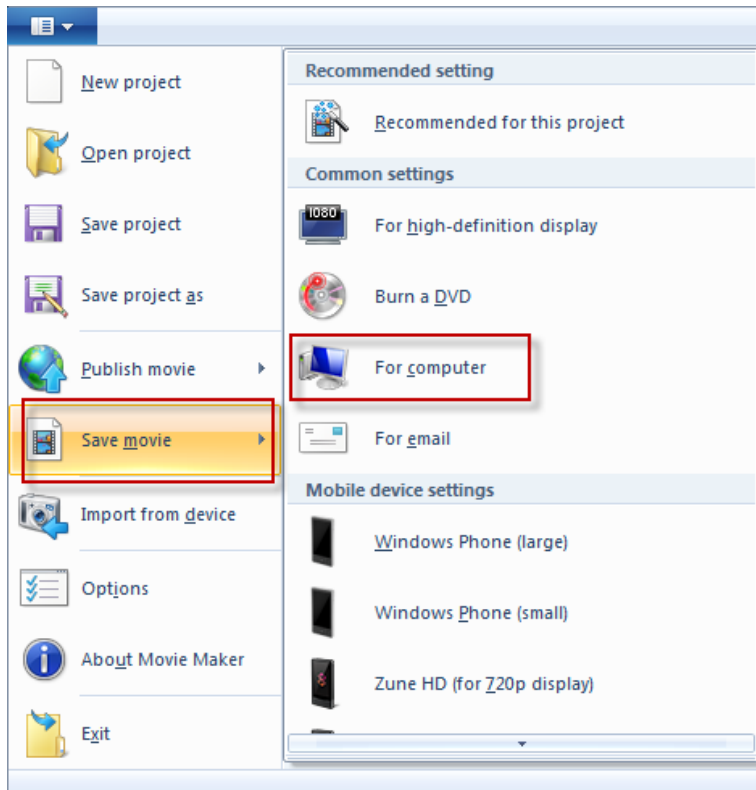

11. The Title and Credits screens now show up on the timeline. Click on the “Title”

13. Click inside the Preview window and edit the default text.

14. Click the Menu button, Choose "Save movie" and then choose a profile such as "For Computer".

15. Choose the save location and file name.
